Convert metric units of length

Grade 6 Measurements Worksheet

Convert the given measures to new units.

1. 37 cm = _____ mm
2. 927 m = _____ cm
3. 598 m = _____ cm
4. 20 m = _____ cm
5. 914 m = _____ cm
6. 58 m = _____ cm
7. 863 m = _____ cm
8. 626 cm = _____ mm
9. 38 m = _____ cm
10. 771 m = _____ cm
11. 18 m = _____ mm
12. 442 cm = _____ mm
13. 34 m = _____ mm
14. 646 m = _____ mm
15. 704 m = _____ cm
16. 584 m = _____ cm
17. 830 cm = _____ mm
18. 23 m = _____ cm

Miles to Kilometers

Name: _____ Class: _____

Fill in the correct numbers.

Take 1 mile = 1.61 km and round your answers off to the nearest hundredth.

- | | |
|----------------------|-----------------------|
| 2 miles = _____ km | 4 miles = _____ km |
| 3 miles = _____ km | 6 miles = _____ km |
| 5 miles = _____ km | 7.3 miles = _____ km |
| 0.4 miles = _____ km | 12 miles = _____ km |
| 1.7 miles = _____ km | 0.1 miles = _____ km |
| 9 miles = _____ km | 1.85 miles = _____ km |
- If 1 mile = 1.61 km, 1 km = 1/1.61 = 0.6211 miles
- | | |
|----------------------|-----------------------|
| 20 km = _____ miles | 4.5 km = _____ miles |
| 100 km = _____ miles | 22.2 km = _____ miles |
| 200 km = _____ miles | 50 km = _____ miles |
| 110 km = _____ miles | 15.7 km = _____ miles |
| 180 km = _____ miles | 31 km = _____ miles |
| 210 km = _____ miles | 123 km = _____ miles |

You can also customize them using the generator below. Enjoy! Scream for the end of the period from 6 to 17 July Red Home Grid for 6-17.xlsx Grid for 8 June, just complete the three days of home education if you return! This is the second half of the grid, so be careful with the grid of the week from 18 May, the network for the week from 11 May of year 6 Grid 11 May.xlsx Week of the education network in the home from 27 April of the task network of the year 6 27thApril.xlsx Image large version of image Hugh Dowling Close large version of image The control room Close the big version of the image Sign in to complete it for free ---- or --- - Previous view activity Last update20 January 2015 Two Leves converted KM and Miles Creative Commons "Sharealike" Select General Rating (without rating) Your rating is necessary to reflect your happiness. Write an existing review to leave some comments. One more time later. Very useful, many thanksgiving doesn't make any sense for the end user response doesn't make any sense for the end user response doesn't make sense for the end user, what I need Ed. Thank you! The empty response doesn't make any sense for the end-user response doesn't make any sense for the end of UserReport This resource, let us know if it violates our terms and conditions. Later they learn to use decimal numbers in conversions. Students experiment with the weight of objects and measuring capacity, and also learn about temperature and time. Make sure you know your timetables: these are .iceD .iceD .itneC .illim sojiferp sol noc sedadinu .ocirt©Åm ametiss le arap ojabart ed sajoj rech edeup n©ÅilmaT .nemulov la necudortni es setnaidutse sol y sjÅm n©Åa allorased es aerjÅ ed otpecnoc le ,3 orbiL le nE .nos of acisÅf n©Åicacude ed senoiccel sal onauoc ortseam su noc etlusnoC .econoc sal is satnugep ordeidnopser opeit ocum narroha euq aqy hecto, and kilo. The conversions in the worksheet below are easy, as they only involve converting a larger unit into smaller units (such as 3 m = _____ cm) or writing a multiple of ten of the smaller unit in terms of the larger unit (such as 50 mm = _____ cm). The worksheets can be made in html or PDF format (ÀÀÀÀ both are easy to print. It is set on a ThursdayÀ ÀÀ Àand due in the following Thursday . This has the advantage that you can save the worksheet directly from your browser (choose File cÀÀÀ Save) and then edit it in Word or other word processing program. Making great literacy lessons easy. All the resources you see here include the answers (so that you can spend less time marking!) and are differentiated 3 ways; Bronze, Silver, Gold. The metric system: units with prefixes The worksheet below involve converting between a range of metric units with prefixes milli-, centi-, deci-, (basic unit), deka-, hecto-, and kilo-. Html format: simply refresh the worksheet page in your browser window. There is also an optional grid with lots of choices to show us what you can do (see below) . We have already bought next years and it's going to be great ! If you need to home isolate at any point you will find the activities relating to our current topics on this page. Just try again! To get a different worksheet using the same option: PDF format: come back to this page and push the button again. I hope that you enjoy my resources and that they are useful to you. Framework.Download this PowerPoint here.5 | Converting time measurementSolve problems involving converting from hours to minutes; minutes to seconds; years to months; weeks to days.They are designed for Year 4 children and include a variety of time problems and an answer sheet.Get this resource here and also try the converting time on clocks worksheets.6 | Metric units jigsawThis printable PDF includes a number of triangles on with measurements on each side. We hope you We enjoy all the work in line and we have enjoyed many ways teaching you in this way, but we are also very happy that we see you in person. Why do it join the term? In book 1, students learn how a linear medicine system is developed and then carry out activities related to the length of medicine. Grades 6-7 In grades 6 and 7, students continue working with decimal numbers in conversions. Change from cm to mm, km to miles and mism of conversion medicine provide additional challenges for children. In each of them a variety of converting problems of measurements in three sections are disseminated, allowing you to use the entire sheet during a lesson or select specific problems for different teaching sessions. A separate response sheet is included for all sections. Click on any of these links to obtain these resources: A 8 conversion measurements convert between different units of measure for example kilometers by subway; hour by minute. A 5 conversion measurements convert between different units of misma and common imperial units such as inches, pounds and pints. A 5 conversion of misma They show you the simple steps to turn mm to m a km in shape to continue with clear visuals for students to continue. Look up, or on YouTube here. Åä ± ady and subtract: lengths (m/cm/mm); mass (kg/g); volume/capacity (l/ml). A separate response sheet is included for the three sections. Get this resource here.4 Silence What wants to be a millionaire? This resource makes children with conversion questions of length increasingly diffamile using a skho like to be a millionaire? = More information to obtain the working sheet in HTML format, press the "see browser" or "click on the HTML work sheet" . There are options of length, mass, volume and time, or there is a mixed selection of words questions. Turn around with conversion words problems This simple resource is a PDF of 26 conversion words problems for students to try. Decider it here. Our customer service team will review your report and will be in contact. In this pagina you will find mã © tric work sheets for: degrees 2-3 grade 4 grades 6-7 mérica units formed with prefixed basic instructions for working sheets Each working sheet is generated randomly and therefore the only one. Book 2 focuses on measures of length, perimeter and årea. Spellings, mathematics and English duties are given every week so that it will brought it back every week. We kill the year with a lot of speeches - Chief Chief and Chica Head, as well as the house and vice captains and there is always a lot of competitions while students write some fantastic speeches. We want you to have a great year and prepare to be independent, focused students that are ready to move to your new schools by the end of the year. Sometimes the worksheet generated is not exactly what you want. The solution is included. Print here.7 Conversion questions in line This interactive pagina offers a series of measurement conversion questions so that the children answer. Also The various units formed with prefixes at least from millimeter to kilo, such as millimeter, centimeter, decemte, meter, decm, hectomer and kilometer. Some difficulty levels for certain conversions will not accept decimal digits at all. Each worksheet presents a variety of fluidity, reasoning and problem solving activities that are designed to deepen understanding. To get the PDF worksheet, simply press the button entitled "Create PDF" or "Make a PDF Worksheet". Group projects are included in addition to numerous individual activities. In English, we will study several films and books to develop our narrative writing and see how to write formally, and write a formal letter and see if you can get an answer (one year came the Prime Minister!) In math he will. Summary in the four operations and the value of the place before going to many fractions/decides and percentages, with a lot of troubleshooting. Beginning typically in grade 2 or 3, children practice easy conversions, such as changing a larger unit in smaller units (4 cm in 40 mm) and the other form (300 cm = 3 m). Since the metric system is based on number 10, the conversions between the units are very easy; they only involve multiplying and dividing in 10, 100, 1000, etc. Verify what your effects are by making a worksheet and then return to this. Page using the "Back" button in your browser. Welcome back to a new year 6! We look forward to a great year and this is the place to come if you are out of school and you need to work a little while waiting to return.
